RESPONSE TO RESTRICTION REQUIREMENT

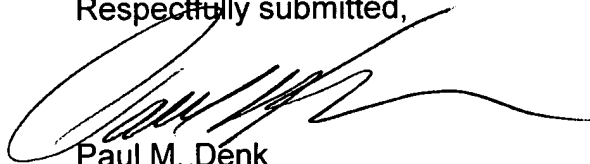

Sir:

This is in response to the Restriction Requirement of November 27, 2007. Applicant initially elects to restrict the claims for prosecution to claims 1, 2, 3, 4, 5, 6, 31 and 32. It appears that these claims relate to the deformable container, formed of an antifreeze gel, of the various ingredients listed, and including at least one sweetener.

On the other hand, it is believed that the remaining claims of this application also contain further ingredient listing, and identification, for the

container as identified in claim 1, and therefore, the election is made with traverse.

Respectfully submitted,

A handwritten signature in black ink, appearing to read 'Paul M. Denk', with a long, sweeping horizontal line extending to the right.

Paul M. Denk
